# Research Methodology

For our study on India GRE Pipes Market, we have conducted comprehensive secondary research followed by an extensive primary research. In the process of secondary research, we have scrutinized industry documents, accessed from open sources, premium paid databases (Bloomberg, Thomson Reuters, Factiva) and our internal knowledge base. In the process of primary research, we have interviewed various industry experts across the value chain of the GRE Pipes Market.

Market size of the actual period (2012-2016) has been evaluated on the basis of growth trends of the industry in the last five years, and confirming the findings through primary research. Annual reports of the companies were scanned to further validate the market size and to estimate the size of various other end-user sectors. Market sizing and growth in the forecast period (2017-2022) is estimated through product mapping, application in end-user industries, growth of allied sectors and historical growth pattern of the industry. All the relevant data points/ statistics in the forecast period are validated through relevant and reliable primary sources.

**Report Focus:** India GRE Pipes Market

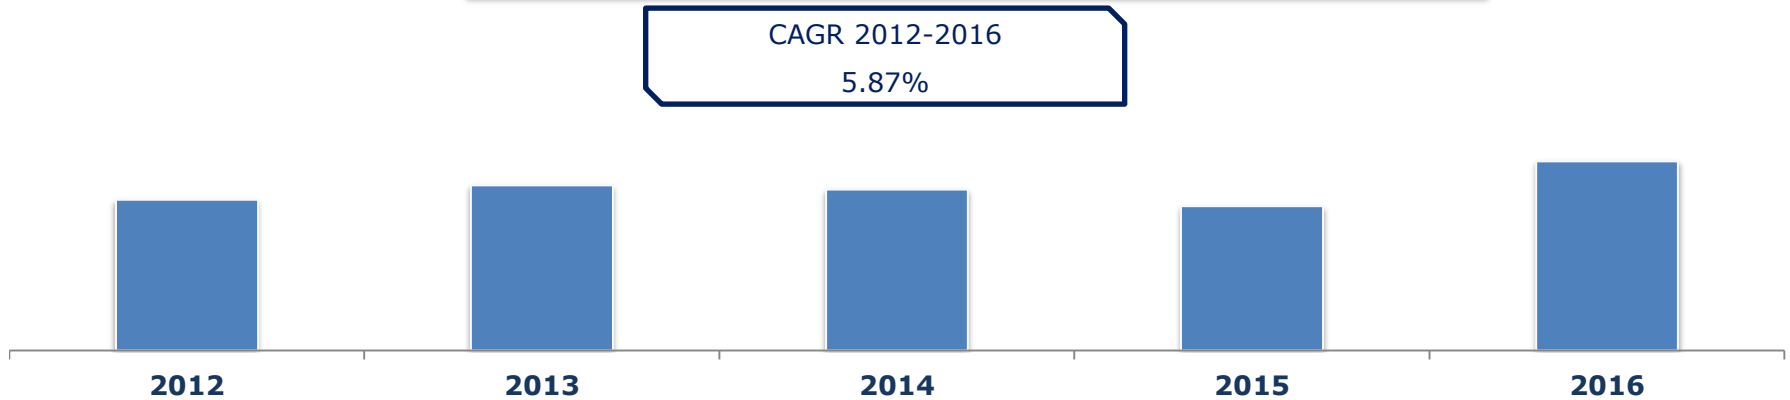

- By End User (Oil and Gas, Industrial, Water and Waste Water, Irrigation and Others)
- Company Coverage (EPP composites pvt. Ltd, Chemical process piping pvt. Ltd., Kemrock Industries & exports Ltd, Amiantit , Graphite India Limited)

**Companies Contacted:** Graphite India Limited , EPP Composite s Private Limited,
