

Global Water Pipeline Leak Detection System (LDS) Market: Trends, Opportunities and Forecasts (2015-2020)

- By Technology – Equipment, Inspection Service
- By Equipment – Acoustic, Non Acoustics
- By Type – Continuous Water Pipeline and Non Continuous Water Pipeline
- By Location of Application- Underwater, Above the ground, Underground

Research Methodology

Research Definition

- The Global Water Pipeline Leak Detection Market Report comprises of the study of various aspects of Water Pipeline Leak Detection System Equipment and Inspection Service market and forecast until 2020. The Global Water Pipeline Leak Detection Market has been segmented on the basis of Technology, Equipment, Type and Location by Application across the Globe.

Data Analysis and Interpretation

- The industry, sector and the segment is defined and the historic market trend is figured out through various paid databases. The next stage involves comprehensive primary research in which the various stakeholders of the market segment (e.g. LDS equipment manufacturers, service providers, dealers/distributors in case of leak detection products) are contacted, interviewed and their insights taken. The insights from the experts/stakeholders are triangulated with the historical market trends. Further, Back-of-the-Envelope calculation for the market estimation is made through proper understanding of the market as well as future business strategies of the companies engaged in the market.
