Research Methodology

For our study on Global Online Casino Market, we have conducted comprehensive secondary research followed by an extensive primary research. In the process of secondary research, we have scrutinized industry documents, accessed from open sources, premium paid databases and our internal knowledge base. In the process of primary research, we have interviewed various industry experts across the structure of the online casino.

Market size of the actual period (2013-2017) has been evaluated on the basis of growth trends of the industry in the last five years, and confirming the findings through primary research. Annual reports of the companies are scanned to further validate the market value which is in terms of Gross gambling yield (GGY) - the amount retained by operators after the payment of winnings but before the deduction of the costs of the operation and to estimate the size of various segments. Market sizing and growth in the forecast period (2018E-2023F) is estimated through mapping, growth of online casino and historical growth pattern of the industry. All the relevant data points/ statistics in the forecast period are validated through relevant and reliable primary sources.

Report Focus: Global Online Casino Market.
