Research Methodology

Research Definition

- The report presents in-depth study of global medical x-ray market. The market has been segmented by mammography x-ray machines, c-arms x-ray systems, dental x-ray systems and mobile x-ray systems. Regional Analysis consists of four major regions- North America, Europe, Asia-pacific and Rest of the World including countries – U.S., Canada, Germany , France , UK, China, India, Japan.

Data Analysis and Interpretation

- Our historic market trend has been figured out by various paid databases which was further triangulated with inputs and insights from industry experts, companies and stakeholders, through primary research (marketing managers, BDE, Zonal Managers). Back-of-the-Envelope calculation for the market estimation has been made through proper understanding of the market as well as future business strategies of the companies operating in the market.

Azoth Analytics has conducted quantitative as well as qualitative research to gather market insights such as market sizing, market segmentation, recent trends and developments and competitive landscape. Our team has conducted extensive primary surveys by reaching out industry experts across the value chain of the global medical x-ray equipment market

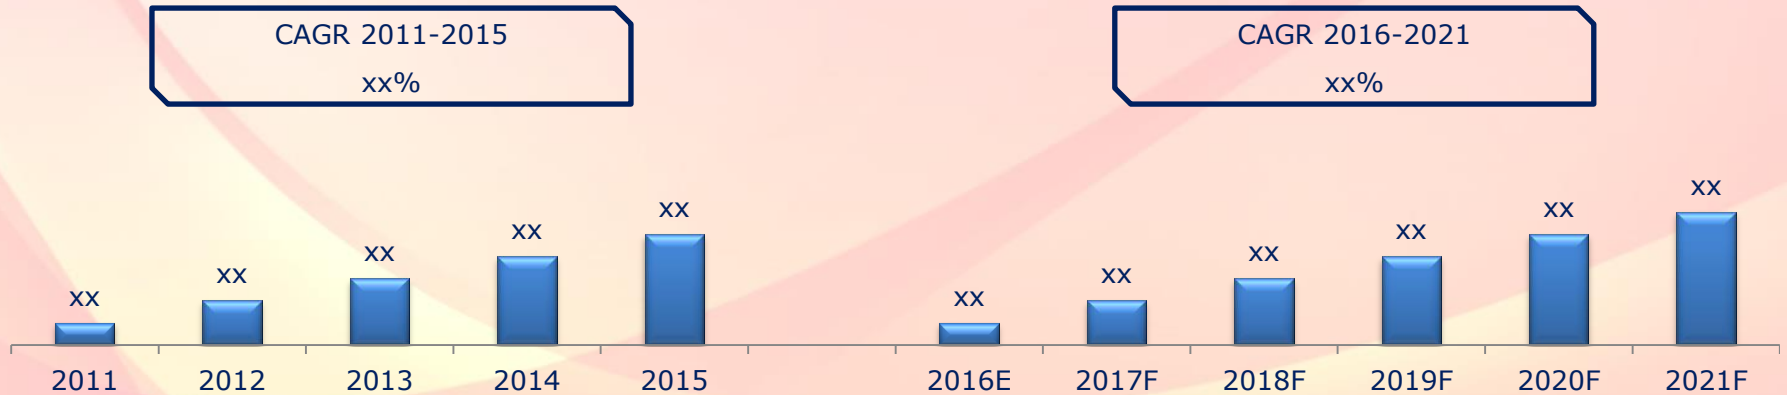

For Forecasting purpose we have accessed some of the paid databases such as Bloomberg, Reuters, Factiva, Hoovers etc.

Companies Contacted

Shimazdu, GE Healthcare, Allengers Medical Systems, Carestream etc.

Global X-Ray Equipment Market Overview

In 2015, APAC contributed around xx% share in X-ray equipment market, which is anticipated to attain a share of around xx% during 2021. Surge in government spending in healthcare infrastructure, rising disposable income and increase participation of private players have supported the growth of X- ray equipments in the region. In terms of healthcare, the region lack the required infrastructure and facilities, but in recent years, the region has witnessed elevation in medical tourism sector and this has increased the participation from private players. Apart from this recent growth in economy along with rising young population with high disposable income is likely to propel the healthcare sector in the region.

North America Medical X-ray Market, By Value

Figure 4 : North America Medical X-Ray Equipment Market Size, By Value, 2011-2021F (USD Billion)

Source: Azoth Analytics

- North America Medical X- ray equipment grew at a positive rate of xx% during 2011-2015 attaining value of USD xx Billion in 2015. Furthermore market for X- Ray Equipment is anticipated to witness growth rate of xx% during the forecast period of 2016E-2021F.
- Due to favorable reimbursement measures undertaken for digital x-ray systems along with the rising demand of improved healthcare facilities , the market for x-ray equipment in the region is expected to grow with a modest growth rate. Moreover the trend of technological advancements in the imaging solutions will give fair opportunity of growth in the region.

About Azoth Analytics Pvt Ltd.

Azoth Analytics creates in-depth research reports by recording, interpreting and analyzing information through primary and secondary research. Our strategic market sizing and data dredging techniques include secondary research, interviews with key market players and industry experts and use of industry specific statistical tools which helps in designing and planning effective research for our global and local clients. We provide customized market research reports revealing the hidden truths on different verticals like pharmaceutical, oil and gas, retail, telecommunications, real estate, logistics, energy, healthcare, technology, FMCG, food & beverages and media sectors .
